

# Rigaku Global Intellectual Property Policy

VER.1  
AS OF MAY 22, 2024  
RIGAKU HOLDINGS CORPORATION

---

Under the Rigaku Global Intellectual Property Policy, we are committed to providing products and services that foster the sustainable development of our customers in order to realize our Corporate Philosophy, “To contribute to the enhancement of humanity through scientific and technological development.” We promise to cooperate in creating a mutually comfortable working environment for everyone at “Global One Rigaku,” to act as responsible members of society for sustainable development, and to utilize all our resources to continually enhance corporate value.

- We will appropriately protect intangible assets created by the Rigaku Group’s comprehensive research, development, services, and marketing activities by securing them as intellectual property rights (including Patents, Utility Model Rights, Design Rights, Trademarks, Copyrights, Plant Breeder’s Rights, etc.) and managing them as trade secrets and know-how.
- We will utilize the logos and other trademarks owned by the Rigaku Group in an appropriate and accurate manner, in accordance with established standards.
- We acknowledge that the company’s brand and its intangible assets are crucial assets for the company. In line with this, we commit to engaging in innovative activities when it comes to intangible assets across the Rigaku Group in order to foster the advancement of society and the company.
- Should any of our valuable intangible assets be infringed upon by third parties, including but not limited to patent rights and counterfeits, we will respond decisively with appropriate measures such as warnings and legal actions.
- We respect the intellectual property rights of third parties, including trademarks and patents, and shall not use them without the express permission of the intellectual property rights holder. Additionally, we are committed to not damaging or infringing upon these rights.
- Acknowledging that intellectual property laws and regulations differ globally, we will enact suitable measures to register, disclose, transfer, use, and license intellectual property rights accordingly in each jurisdiction.
